COMPANY PROFILE

*Bonding
Industry Together*

ABOUT US :

OUR STORY

IE ADVANCE specialized in designing, manufacturing and supplies complete range of Bonded Abrasives and Super Abrasives. We aimed at making processes easier, and to innovate grinding system methodology. We design, formulate and manufacture product that meets customer tough techno commercial requirement.

OUR VISION

Empowering Industry by playing a significant role in the industrial sector. We aims to provide the tools, resources, and solutions necessary for industries to thrive and grow

OUR MISSION

Provide exceptional industrial product and services that meet the diverse needs of our client, we strive to foster strong and lasting relationship with customers, suppliers and partners, delivering value through quality products and unparallel customer service

OUR SERVICES

Our marketing team has everything you need to run a successful cost reductions program, sourcing for alternative supplier as well as providing solutions in grinding problem

Our customer service makes it easy to connect with customers, help them succeed, and ensuring on time delivery

Our strong technical and application support is available to provide customers a personalized grinding solutions

WHY CHOOSE US?

Our solutions makes it easy and flexible for your production to work together — from choosing the right solutions, to testing, to customer service as well as strong technical back up and support

INDUSTRIAL REGRINDING MACHINE FOR TAPS AND END MILLI

Drill bit grinding is simplified

Carbide drill

The grinding is accurate and fast, the body is small in size, and it can be lifted with one hand. It is suitable for grinding drills anywhere.
